ADMINISTRATION

Superintendent's Message

Congratulations to the Class of 1961. This is one of the finest classes to graduate from our High School. Considerable credit should be given to this class for the wonderful record they have made scholastically and, also, for the many activities you have participated in these few years of high school. You are to be commended for this high caliber of school spirit.

In this highly accelerated age of missiles and space races; of the highly developed skill in working with scientific projects; of the closeness of world relations; of the nearness of our foreign neighbors; of the ups and downs of "cold wars" amongst the various nations; of the highly skilled needs of man in industry; of the many implications in politics; and of the many other items too numerous to mention, you, as individuals, will be a part of this huge mass of humanity needed in the operation and manipulation of its many phases of work in industry, government, and everyday life. Your answer to this is education for yourself in specialized or in professional fields.

My advice to each of you is to do the best you can in obtaining your advanced education as soon as possible.

May God bless each and every one of you in your efforts and may you have a successful future.

Sincerely

Steve Glasna

Principal's Message

Many times at this time of year and at this particular period in the lives of you young people, I have wished for a great quotation or gift of words that would elevate you to great heights of endeavor, give you a driving power to success, or a phrase of long lasting meaning. This one quotation, supposedly from Spanish origin, I feel best fills the vast vacuum of time before you, and expresses my feelings and desires for you. "Choose what you will, then pay for it,!" meaning, in life we choose what we want ourselves to be, then we pay for that choice. If your choice be one of high standards and ideals, then the price of life is high. If you choose to throw your life and future away to the world, only you will pay the price of failure and hopelessness.

I hope all of you have had a very enjoyable year. I know I speak for the administration, the faculty, and the community when I say that you, the students, of Idaho Spring High School have risen to the challenge of high school and have conquered one of the great steps in the saga of life.

May I wish all you Seniors the best life has to offer, success, happiness and a sense of internal bliss. To the underclassmen, I say let's all look to next year with even greater ambitions and enthusiasm, remembering "Choose what you will, then pay for it."

Sincerely

Rex W. Hester

Class History

Formal education for the members of the class of 1961 began in the fall of 1948 when the kindergarten met in the old grade school building under the guiding hand of Miss Scott. Members of that group were Linda Abbott, Tony Brozek, Jim Davis, Barbara Florine, Wilma Frye, Leffel Leach, Buddy Orr, Kathy Rice, Elizabeth Seay, Gail Smith, and Bill Turner.

During the following year, Miss Mullenax, directed the activities of the crew. New additions in this first grade, were Roy Farrow, Everett Groves, Kenneth Harlan, Don Ray, and Nancy Roberts.

The third plateau was reached when Dorothy Kellenbenz became supervisor of our group. That year, we had no new additions.

We began our fourth level of learning in the fall of 1951 under the direction of Miss Pearl Ford, and again our number was not changed.

The fourth grade class was joined by Dennis Haulman and Jerry Newbrey, Guiding the group that year was Mrs. Diale.

Mr. Shovlen became manager of the crew for the fifth grade year. The newest members of the class were Bob Bauer, Diane Griesel, Charles Lewis, and Doreen Slater.

Annette Long Anderson supervised the education of the sixth grade class. We learned to square dance that year. There were no new additions.

In the seventh grade, again without any new students, we were guided by Mr. Bundrant through our first experiences of junior high school. This year the new grade school was being occupied for the first time.

In the eighth grade, we were joined by Ralph Cravens, Jo Ann Jackson, Shirley Lamb, Mike Nowery, and Wayne Preskar. Our foreman for that year was Mr. Werner Pohle.

Finally, in September 1957, the Class of '61 entered Idaho Springs High School as freshmen. Besides the old members, Jim Harlow, Sharon Satt, and Edward Dingman were now a part of our group. It was then that we also gained Mr. Harry Slater, who that year guided us through freshman initiation.

With Mr. Slater and Mr. Clarence Mackey as our class sponsors, we started our sophomore year with three new additions, Mimi Brown, Bill Garner, and Janet Montera.

Reorganization brought eleven Georgetown students to our class in the fall of '60. They were Carol Abrahamson, Thomas Buckley, Eugene Chandler, Eddie Guanella, Margaret Howard, Yvonne Johnson, Janet Lane, Lorrie Maag, Billie Menzies, Nancy Nichols, and Nancy Reichwein. Also joining our class was Alan Rhoweder. Mr. Slater and Mrs. Mary Myres, were co-sponsors of our class. It was an exciting year in which we presented our class play, "Seventeenth Summer," and hosted the Junior-Senior Prom, Neptune's Paradise.

As our Senior year began, we gained Bob Brown, Carol Logsdon, and Nancy Mott. With Mr. Slater and Mr. Hester guiding our class activities, we have had a very successful year which was highlighted by the long-awaited senior sneak trip. With graduation at hand we are near the end of our journey through the Idaho Springs public schools. To the fine people of Clear Creek County who have made our education possible goes our deepest gratitude. We shall strive to be a credit to our school and all it has come to mean to us.

Chapter 3 THE BEGINNINGS OF THE UNITED STATES

The roots of American government reach deep into the past. Our system of government did not suddenly spring into being at the start of some political revolution's war. Nor was it pulled out of thin air by the

Our English Heritage
The French, Spanish, Dutch, Norwegian, and other Europeans settled in parts of what was to become the United States. But it was the English who came in the largest numbers. And it was the English who came to control the thirteen colonies that stretched for 1,200 miles along the Atlantic coast.

These early pioneers who crossed the wilderness and fought off the Indians had to look out for their own future in the New World. But they came here in search of a better life.
