A Continent Fired Up

Smoke billows rise as fires ravage Australia. Wildfires burned over 28 million acres, killing dozens of people and destroying thousands of homes. Over a billion animals, including one-third of the koalas in New South Wales, died in the devastation and the smoke was visible from satellites in space.

The University of Tennessee mascot wears the shirt that became a national sensation after a story of a young boy bullied for wearing a hand-drawn UT paper on an orange shirt for his school's college day went viral. UT made his design into an official shirt that sold out within minutes, with profits going to an anti-bullying organization. The university offered him a four-year scholarship.

Desperate Admissions

Actress Felicity Huffman and her husband William H. Macy walk out of her sentencing hearing. Huffman and fellow actress Lori Loughlin were among the parents and coaches indicted in a college bribery scandal that alleged parents paid a consultant to alter test scores or attempted to pass their children off falsely as athletic recruits to gain admissions. Huffman was sentenced to 14 days in prison.

Cruising to the Rescue

Royal Caribbean's cruise ship Mariner of the Seas hosts victims of Hurricane Dorian in the Bahamas. Refugees received shelter, food and transportation after the city of Freeport was devastated by the hurricane in September. Royal Caribbean and many other companies donated to disaster relief organizations to rebuild the area.

Desert Storm

Extraterrestrial enthusiasts gather at the infamous Area 51 despite military warnings. College student Matty Roberts created a Facebook event called "Storm Area 51, They Can't Stop All of Us" as a joke, but it soon went viral with millions marked as Going or Interested. The event later transformed into a music festival called AlienStock.

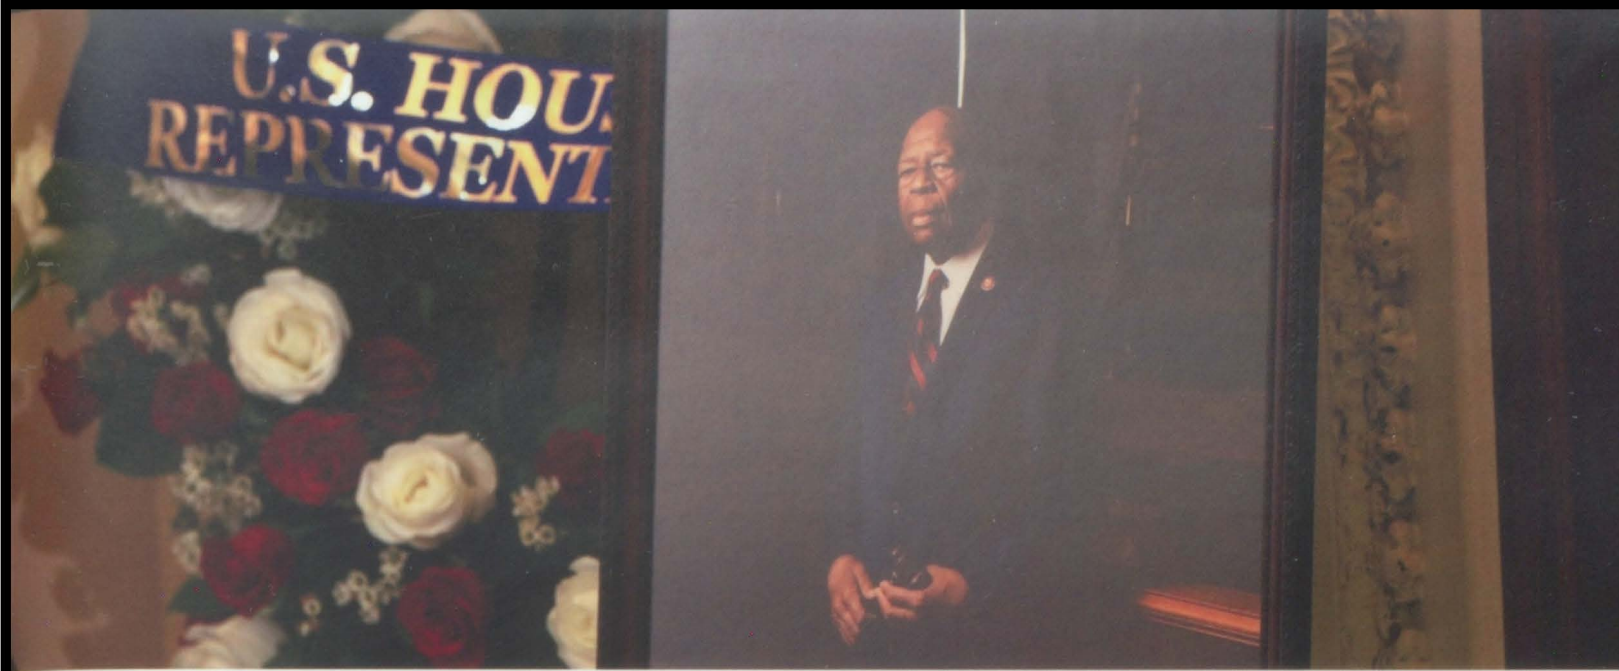

Pawsitive News

After decades of Breed-specific Legislation (BSL), many cities begin lifting bans on pit bull breeds, meaning more get adopted from shelters into fur-ever homes. Hundreds of cities adopted BSL beginning in the 1980s when pit bulls were portrayed as dangerous and aggressive, sometimes banning dogs that even had a resemblance to the breed. As residents, animal advocacy groups and dog owners spoke up, the tide of public opinion began to shift.

A Life Remembered

U.S. Representative Elijah Cummings of Baltimore becomes the first African American lawmaker to lie in state at the U.S. Capitol. Cummings, who served in Congress since 1996, died in October from long-standing health complications. He was the son of sharecroppers who became a civil rights leader admired by both sides of the political aisle.

Brexit Stage Left

Workers remove the United Kingdom's flag outside of the European Parliament in Brussels, Belgium, as they officially leave the European Union (EU) on Jan. 31. The country first voted for Brexit, as Britain's exit from the EU was coined, in 2016 by a narrow margin, leaving the kingdom bitterly divided. The removal was delayed numerous times when Britain and the EU failed to reach a trade agreement that received enough votes in British Parliament to pass.

It's Time

China

A barber offers Doctor Liu Zhiping a free haircut at the medical team residence of Hankou Hospital in Wuhan on Feb. 24 to celebrate Longtaitou Day, all while taking extra precautions for his health. The Chinese considered it good luck to have their hair cut on that day, so over 100 barbers volunteered their time and gave nearly 4,000 medical workers a haircut that week. Though the devastating outbreak started in China, their preventative measures slowed the spread of the virus.

France

France becomes the first nation to close all of its schools. The aggressive measure was implemented as a way to flatten the curves of the outbreak; however, many parents were left with few options for childcare without school. As the effects of the virus worsened, France and other European nations took additional steps to stem the tide and assist residents impacted.

South Korea

Medical staff test for COVID-19 at a drive-through check post in Daegu, South Korea. The Asian country was initially one of the world's most affected countries, but the high numbers may have been due to the high rate of testing. The country's Centers for Disease Control and Prevention reported more than 100 facilities were available for testing, which was free to anyone referred by a doctor.
